SKILLS

- HTML, CSS, C#.NET, MVC Framework, PowerShell, and ASP.NET.
- Understanding of Object-Oriented Programming
- Interface design and implementation
- Problem resolution

EXPERIENCE

CodeCrew Code School
Memphis, TN
Sep 2021-Current

- Teaching Assistant
  - As a teaching Assistant I assisted the instructor in helping to plan and execute lessons as well as grading work in the evening.

- Leading 102 Program
  - The 102 program is a self led program that runs through HTML, CSS, and some basic JavaScript.

Terminix Internship - TMX Online Team
Memphis, TN
May 2021-Aug 2021

- SAFe Certification
  - Successfully passed SAFe exam to receive certification
- Sitecore Module Implementation
  - Worked on implementing a new module to an existing Sitecore page that allowed admin to see failed payments and process them manually.

CodeCrew Resident Program

Memphis, TN

Jan 2021-May 2021

- Innovate Memphis Project
    - Mocked up prototype Web App in team environment based on current understood parameters.
    - Took turns leading the team in Agile style standup for morning meetings mapping where we were and what the plan was for the day.

CodeCrew Code School

Memphis, TN

July 2020 to Dec 2020

- Trex Shipping

    - Performed as team lead for three weeks leading in standup, managing work distribution, and ensuring project was completed on time.

    - Created a package tracking site with .NET that could tell a customer where a package was, when it arrived, and what condition it is in.

    - Successfully implemented a complex system of interwoven information utilizing HTML, CSS, and C# to bring it all together with MVC for the customer experience.

- GitGud

    - Successfully planned, wireframed, and implemented a user driven teaching website.

    - Handled issues and assignment of tickets through utilization of a Kanban board.

    - Researched and implemented a method utilizing the iText7 library to pull information from a view and generate a PDF in browser.

Key Holder
Memphis, TN
Knowledge Tree Inc./ Feb 2019 to May 2020
- Accomplished sales goals by engaging customers, providing exemplary service and promoting special items.
- Assisted with training and supervision of staff to develop and maintain store selling, customer service skills and product knowledge.
- Performed, supported and supervised store opening and closing procedures including bank deposits and securing store.
- Developed product knowledge expertise by understanding features and benefits to drive revenue growth and boost upselling.
- Assisted in setup of new POS system across all stores and helped train other employees on new system.
